LETTER OF RECOMMENDATION

Anastasiya Siarheeuna Lakhmakova from 08.12.2021 to 21.03.2022 as trained in ООО "Educational Center for Programming and High Technologies" on the program "Functional Software Testing" (108 hours).

During the course of her studies, Anastasiya learned:

- the process of planning and organizing testing (test plan and test strategy);
- methods of requirements analysis and testing;
- test development methodology (checklists, test cases, test scenarios);
- algorithm for reporting test results;
- fundamentals of automated testing;
- basics of mobile device testing;
- database basics and SQL fundamentals;
- web-oriented applications testing.

As a practical work Anastasiya tested the "Projects" module of the web application "Group&Work" - project management platform. She conducted system and integration testing, was responsible for the "Quality and Acceptance Criteria" clause in the test plan, compiled test cases, and wrote bug reports.

During the training process Anastasiya showed herself as a responsible and active trainee. She strictly adhered to deadlines for practical tasks, wrote high-quality test cases and bug reports with all necessary and additional attributes. Always strived to understand new topics and put them into practice. Excelled at the defense of the final project.

Anastasiya's grade in the course was 8 out of a possible 10 points.

Anastasiya Siarheeuna Lakhmakova is recommended for the position of Junior Software Test Engineer.
